

## **Be the change. Be a Voter!**

*It's our community!*

Our campaign – Be a Voter! -- is based on a simple idea: voting is a public act, and the more public, the more it asserts our civic identity and our shared community.

We have devised a badge that proclaims our “citizenship” – [“Voter!”](#). We encourage all to wear it and display it before the election. It is a way to make public who we are, our claim to citizenship, and our belief in a community of action.

We believe that it is important to give this idea away and to enlist others to take it as their own – **to use it, shape it, and share it** –since the act of sharing is an act of citizenship and a commitment to community. So, take it from us and give it away to your friends.

You'll find in our tool kit ways to make public your civic identity

- Tag lines you can add to your email address site. And an invitation to create your own.
- A backdrop you can use when going on Zoom
- Design Formats for Window Cards or Posters and instructions for printing your own.
- Links and Information to get absentee/mail-in ballots, to confirm your registration, to find your district and polling place and how to get there.
- Information about other local voter support sites and services.

We hope you'll join our campaign and hope that you'll pass this idea and the Voter! link along. It's your community. Let's show up together!
